College Code: SDIP

Institutional Distinctiveness

The Institute is striving hard with strategic plan of action in making every student into perfect pharmacist who further inculcated with skills which will benefit personally and serving the society at large. Service is the motto. **Cesar Chavez said "The end of all knowledge is service to others".** Service is worship.

The Institute has clearly defined the vision, mission, program outcomes, program education objectives and course outcomes. The same has been communicated among faculty, students and other stake holders.

The Management, Principal, Staff and Student Council participate in decision making, executing and evaluating the practices and functions of the college.

The organizational structure decentralizes the power and responsibilities, the various committees formulated will ease the routine institute works and the responsibilities are well taken care by every stake holders.

Participatory leadership and teamwork reflect the core values and ethics of the institution. The institution emphasizes on holistic education focusing on the integrated personality of students.

The student-centric teaching methods are followed and the learning process is mostly interactive and participatory in nature.

The student's academic progress monitored regularly by the staff and mentored. Student counseling is a routine procedure which creates a healthy relation among the faculty and students.

To integrate the academic program and the institution goals, the institute has organized various seminars, guest lectures, industrial visits, hospital & clinical training for PharmD and PharmD(PB) students, Blood Bank training for first year B.Pharm students, Pharmacy Practice training for second year B.Pharm students, GPAT coaching for third and fourth year B.Pharm students, Medical Coding training to fourth year B.Pharm students, Industrial training and research project guidance to M.Pharm students, Guidance for Higher Studies, workshops in consultation with the stake holders and receives feedback regularly with reference to curricular aspects.

The college nurtures critical thinking among the students by incorporating group discussion, presentation of papers, project work, and participation in various activities on campus and off campus.

The institute adopts multidisciplinary and innovative approaches in education and research to fulfill the emerging need of industry for development by strengthening of infrastructure and research facilities in interdisciplinary areas.

The Faculty and students are also motivated to present papers in National/ International level seminars, conference and workshops.

The Placement Cell functions very efficiently by identifying suitable placement for the outgoing students.

The students are motivated to actively participate

- in health awareness rallies
