Impact: The extension and outreach programs of SDIP makes the students interact with the community and help them to inculcate the social, ethical and professional responsibilities towards serving the societal needs. Not only this the organisation has always collaborated with NGO for the upliftment of the community and has won prestigious awards in this regard. The activities provide the opportunity to build the relations and MOUs with the government and private hospitals along with the academic institution.

Outcome of the Programme: The outreach programmes fosters the knowledge of societal needs and issues to be addressed as a health care professional. To deal this the skills inculcated by the students under the faculty expertise plays major role that find ways to issue community problems. The skills include knowledge based and over all development of the personality.

By sensitizing students to social issues, we can help them to develop: Empathy and compassion, Critical thinking and problem solving skills, Effective communication and collaboration skills, Social responsibility and civic engagement, cultural competence and understanding.
